计算机应用研究  
Jisuanji Yingyong Yanjiu  
第 43 卷 第 10 期 2026 年 10 月  
目 次

综述评论

面向 Non-IID 联邦学习的自适应隐私预算分配:研究现状与挑战 ..... 何丽丽,李金红,张磊,潘昶,管新如,闫文刚(2881)

基于行为特征的无人机蜂群控制机理逆向分析方法综述 ..... 于婧,段通,张震,李海林(2894)

多模态大模型专题

基于不确定性估计和反馈式多模态融合的意图识别 ..... 李加睿,官文娟,刘建豪,李淳涵(2905)

基于教师引导蒸馏与文本查询选择性对齐的多模态情感分析 ..... 冯广,曹雨巧,孙相利,黄俊辉,林忆宝,赵志文(2913)

一种大语言模型驱动的多模态精煤灰分预测方法 ..... 鲁法明,李子辰,林泽东,曾庆田,包云霞(2923)

具身智能技术应用专题

基于改进视觉特征与文本语义的机器人多任务模仿学习算法 ..... 温文涛,陈凯,杜禹恒,郑华强,刘伟烨,袁野,刘娜(2929)

多层次语音特征融合的仿生机器人嘴部运动生成方法 ..... 刘伟烨,刘娜,袁野,洪吉,温文涛(2936)

注意力学习专题

融合深度聚类与自适应非平稳调控的光伏功率预测 ..... 张海清,邹亦飞,杨孟辑,唐鑫,李代伟,郭本俊(2942)

融合动态特征提取与注意力聚合的药物推荐模型 ..... 王永贵,吴奇昌(2950)

基于双流异质信息的实体对齐模型 ..... 何欣宇,李燕,宋豪俊(2958)

基于多尺度时空频融合的自监督交通流预测模型 ..... 丁元明,王荣敏,宋琳,王楷心(2966)

基于改进 ASTGCN 的城市区域短时车流量预测 ..... 曾添,杨德刚(2974)

算法研究探讨

一种融合显式和隐式信息的公理化偏好聚合框架 ..... 张婷婷,姜桂飞(2985)

基于稀疏图学习的增量多视图聚类算法 ..... 潘笑颜,陈得友,闫小强(2994)

考虑模糊需求和时变路网的多配送中心冷链配送路径优化 ..... 孙晨琪,李建勋,张若晨,李明万,刘思雨(3003)

基于改进 RRT\* 高效引导调节策略的机械臂三维空间路径规划方法 ..... 刘志东,刘 庆,刘志杰(3017)

融合正负反馈机制的多层网络异质节点信息传播模型 ..... 段 迪,刘小洋,赵 娜,曹 琼(3025)

基于症候矩阵与迭代推理机制的系统级故障诊断算法 ..... 王虎明,冷 明,孙凌宇(3034)

网络与通信技术

基于可控波束分裂的超大规模 MIMO 混合场低开销波束训练方法 ..... 郑天昊,谢志立,张广驰,崔 苗,付 豪(3042)

基于可靠性保障的 SDN/NFV 网络服务功能链调整方法 ..... 石 杰,刘益岑(3049)

面向多无人机协同的快速部署及任务卸载能耗优化框架 ..... 敬 超,吴守毅,覃凤萍(3059)

基于双拓扑控制的异构多无人机动态网络覆盖 ..... 何杏宇,罗东旭,杨桂松(3070)

空间可变局部细化增强的宽带近场 XL-MIMO 极域信道估计..... 杨黎明,刘 航,陈 熠(3078)

基于联邦策略蒸馏的 LEO 卫星网络分布式路由算法 ..... 杨桂松,李易恒,何杏宇(3086)

基于多 RIS 和 HARQ 辅助的 CR-RSMA 网络性能分析 ..... 周永强,白晓雪(3094)

信息安全技术

基于量子行走与混沌扰动的改进 Grover 非对称加密方案..... 陈 虹,张家华,金海波,武 聪(3100)

基于 Diffusion-GAN 的人脸特征混淆隐私保护方法 ..... 王 斌,吕灵慧,王 畅,张 磊(3111)

Evo-KAN:结合差分进化与自适应核切换的联邦 Kolmogorov-Arnold 网络优化框架 ..... 甄子业,王 玲,龚佃选,姜 志(3122)

能量匮乏物联网传感系统安全加密关键技术 ..... 王 杨,石 鑫,杨怀宇,巫林娜,董秀英,张 翀(3134)

基于切比雪夫映射和 PUF 的轻量级无人机认证方案 ..... 陈涵宇,黄冬艳(3143)

基于多方向梯度预测与高效编码的密文域可逆数据隐藏..... 刘 涛,徐达文(3151)

图形图像技术

基于上下文感知对象先验与语义解耦的弱监督视频异常检测 ..... 杨宏宇,许万茹,苗振江,姚瑞莹(3161)

面向高分辨率遥感场景的跨尺度状态空间语义分割 ..... 李 臻,汪西原,刘子亮(3170)

基于区域一致性与融合注意力的感知域开放词汇语义分割方法 ..... 王立辉,郝道展(3178)

自适应动态阈值与置信度评估的多粒度成对加权深度度量学习 ..... 张孟林,蒋雨涵,王祎丹(3186)

复杂退化上下文引导可控红外可见光图像融合网络 ..... 宋京昊,许 锋,陈 悦(3193)

信息集萃

下期要目 ..... (3200)

# Application Research of Computers

## Vol. 43 No. 10 Oct. 2026

### Contents

#### Survey

|                                                                                                                |                                                      |
|----------------------------------------------------------------------------------------------------------------|------------------------------------------------------|
| Adaptive privacy budget allocation for Non-IID federated learning: research status and challenges .....        | He Lili, Li Jinhong, Zhang Lei, <i>et al.</i> (2881) |
| Review of reverse analysis methods for drone swarm control mechanism based on behavioral characteristics ..... |                                                      |
| .....                                                                                                          | Yu Jing, Duan Tong, Zhang Zhen, <i>et al.</i> (2894) |

#### Special Topics in Multimodal Large Model

|                                                                                                                                         |                                                            |
|-----------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------|
| Intention recognition based on uncertainty estimation and feedback-driven multimodal fusion method .....                                |                                                            |
| .....                                                                                                                                   | Li Jiarui, Gong Wenjuan, Liu Jianhao, <i>et al.</i> (2905) |
| Teacher-guided distillation and modality-coordinated gating with text-query selective alignment for multimodal sentiment analysis ..... |                                                            |
| .....                                                                                                                                   | Feng Guang, Cao Yuqiao, Sun Xiangli, <i>et al.</i> (2913)  |
| Large language model-driven multimodal prediction of clean coal ash content .....                                                       | Lu Faming, Li Zichen, Lin Zedong, <i>et al.</i> (2923)     |

#### Special Topics in Embodied Intelligence Technology Applications

|                                                                                                             |                                                       |
|-------------------------------------------------------------------------------------------------------------|-------------------------------------------------------|
| Robot multi-task imitation learning algorithm based on improved visual features and textual semantics ..... |                                                       |
| .....                                                                                                       | Wen Wentao, Chen Kai, Du Yuheng, <i>et al.</i> (2929) |
| Biomimetic robot mouth motion generation method based on multi-level speech feature fusion .....            | Liu Weiye, Liu Na, Yuan Ye, <i>et al.</i> (2936)      |

#### Special Topics in Attention Learning

|                                                                                                                  |                                                             |
|------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------|
| Photovoltaic power prediction integrating deep clustering and adaptive non-stationary regulation .....           | Zhang Haiqing, Zou Yifei, Yang Mengji, <i>et al.</i> (2942) |
| Drug recommendation model integrating dynamic feature extraction and attention-based aggregation .....           | Wang Yonggui, Wu Qichang (2950)                             |
| Dual-stream heterogeneous information fusion model for entity alignment .....                                    | He Xinyu, Li Yan, Song Haojun (2958)                        |
| Multi-scale spatio-temporal-frequency fused self-supervised learning framework for traffic flow prediction ..... |                                                             |
| .....                                                                                                            | Ding Yuanming, Wang Rongmin, Song Lin, <i>et al.</i> (2966) |
| Improved ASTGCN-based short-duration traffic flow prediction in urban areas .....                                | Zeng Tian, Yang Degang (2974)                               |

#### Algorithm Research & Explore

|                                                                                                |                                               |
|------------------------------------------------------------------------------------------------|-----------------------------------------------|
| Axiomatic preference aggregation framework integrating explicit and implicit information ..... | Zhang Tingting, Jiang Guifei (2985)           |
| Incremental multi-view clustering via sparse graph learning .....                              | Pan Xiaoyan, Chen Deyou, Yan Xiaoqiang (2994) |

|                                                                                                                                       |                                                             |
|---------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------|
| Multi-distribution-center cold chain delivery route optimization considering fuzzy demand and time-varying road networks .....        | Sun Chenqi, Li Jianxun, Zhang Ruochen, <i>et al.</i> (3003) |
| Three-dimensional space path planning method for robotic arms based on improved RRT* efficient guidance and adjustment strategy ..... | Liu Zhidong, Liu Qing, Liu Zhijie (3017)                    |
| Multi-layer network heterogeneous node information propagation model integrating positive and negative feedback mechanisms .....      | Duan Di, Liu Xiaoyang, Zhao Na, <i>et al.</i> (3025)        |
| System-level fault diagnosis algorithm based on syndrome matrix and iterative reasoning .....                                         | Wang Huming, Leng Ming, Sun Lingyu (3034)                   |

### Technology of Network & Communication

|                                                                                                                   |                                                                |
|-------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------|
| Low-overhead beam training method in hybrid field for controllable beam split-based XL-MIMO .....                 | Zheng Tianhao, Xie Zhili, Zhang Guangchi, <i>et al.</i> (3042) |
| Reliability-guaranteed service function chain adjustment method for SDN/NFV networks .....                        | Shi Jie, Liu Yicen (3049)                                      |
| Energy optimization framework for fast deployment and task offloading in multi-UAV collaboration .....            | Jing Chao, Wu Shouyi, Qin Fengping (3059)                      |
| Dynamic network coverage method for heterogeneous multi-UAVs based on dual-topology control .....                 | He Xingyu, Luo Dongxu, Yang Guisong (3070)                     |
| Spatially variant local-refinement-enhanced polar-domain channel estimation for wideband near-field XL-MIMO ..... | Yang Liming, Liu Hang, Chen Yi (3078)                          |
| Distributed routing algorithm for LEO satellite networks based on federated policy distillation .....             | Yang Guisong, Li Yiheng, He Xingyu (3086)                      |
| Performance analysis of CR-RSMA networks with multi-RIS and HARQ assistance .....                                 | Zhou Yongqiang, Bai Xiaoxue (3094)                             |

### Technology of Information Security

|                                                                                                                                          |                                                           |
|------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------|
| Quantum asymmetric encryption scheme based on improved Grover algorithm and chaotic perturbation .....                                   | Chen Hong, Zhang Jiahua, Jin Haibo, <i>et al.</i> (3100)  |
| Diffusion-GAN-based face feature obfuscation for privacy protection .....                                                                | Wang Bin, Lyu Linghui, Wang Chang, <i>et al.</i> (3111)   |
| Evo-KAN; federated Kolmogorov-Arnold network optimization framework combining differential evolution and adaptive kernel switching ..... | Zhen Ziye, Wang Ling, Gong Dianxuan, <i>et al.</i> (3122) |
| Key security encryption technologies for energy-deprived Internet of Things sensor systems .....                                         | Wang Yang, Shi Xin, Yang Huaiyu, <i>et al.</i> (3134)     |
| Chebyshev map and PUF-based lightweight authentication scheme for UAV .....                                                              | Chen Hanyu, Huang Dongyan (3143)                          |
| Reversible data hiding in encrypted domain based on multi-direction gradient prediction and efficient coding .....                       | Liu Tao, Xu Dawen (3151)                                  |

### Technology of Graphic & Image

|                                                                                                                              |                                                             |
|------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------|
| Context-aware object priors and semantic decoupling for weakly supervised video anomaly detection .....                      | Yang Hongyu, Xu Wanru, Miao Zhenjiang, <i>et al.</i> (3161) |
| Cross-scale state space semantic segmentation for high-resolution remote sensing imagery .....                               | Li Zhen, Wang Xiyuan, Liu Ziliang (3170)                    |
| Open-vocabulary semantic segmentation method for perceptual domains based on regional consistency and fusion attention ..... | Wang Lihui, Hao Daozhan (3178)                              |
| Confidence-aware multi-granularity pairwise weighted deep metric learning with adaptive dynamic thresholds .....             | Zhang Menglin, Jiang Yuhan, Wang Yidan (3186)               |
| Text-guided controllable infrared-visible image fusion network for complex degradation .....                                 | Song Jinghao, Xu Feng, Chen Yue (3193)                      |
